

# Replacement Nylon Pad for p/n 500.101 Wire Duct Cutter (Part No. 500.108)

## INSTALLATION INSTRUCTIONS

Part Number 500.108 is a Polyamide insert used as a replacement counter-pad for ITC's Wire Duct Cutter 500.101. The dimensions are 60x6x6mm.

How to install:

- 1) Disassemble the blade of the tool using a Philips screwdriver and a 10mm hex key. This is necessary as a precaution, since the blade is extremely sharp and the operator could be injured while replacing the nylon pad
  - 2) Remove the old Nylon pad from the lower jaw of the tool (use a thin screwdriver to push it out of its groove)
  - 3) Insert the new Nylon pad by sliding it into the groove
  - 4) Reassemble the blade
- **Warning:** The blade of this tool is very sharp! Use protective gloves when handling any sharp object. ITC Inc. assumes no responsibility with regards to the risk of injuries to any operator of its products, components and tools.
