

# Wire Duct Cutter - VKS 125

Cuts wiring ducts and covers up to 125mm width, exactly and effortlessly in seconds.

Both the tool and the length stop have fastening tabs to make fitting to the workbench easier.

The VKS 125 is equipped with a spring-loaded guard which covers the blade when the wire duct is not present, ensuring operational protection.

## Features and specifications:

- Burr-free cutting without waste
- Ergonomic hand lever for optimum transmission of force; cuts without effort
- Accurate 90 degree cuts
- Full-surface support with laser engraving
- Anodized, laser-engraved length stop 1,000 mm long with rail-support element for accurate angled cutting, with both millimeter and inch scales
- Increased opening height
- Hinged, spring-loaded blade guard
- Maintenance free
- Easy to fit to the workbench
- **Weight:** approximately 40 lbs.
