

Press Release

Mixo Modular Series Connectors from ITC

Date: February, 2006

Body: ITC present their new modular rectangular connectors for industrial applications. Optimize connections and maximize space through mixing different amperages *and/or* pneumatics within the same housing. Simple to assemble, this system offers flexibility not found in standard industrial connectors, allowing for 10A, 16A, 40A and 80A electrical connections, as well as 3mm, 4mm, and 6mm pneumatic connections. Contact ITC for further information.
