

# Press Release

**DIN Rail and accessories are now RoHS compliant**

**Date: February, 2006**

**Details** All models of DIN Rail and their mounting accessories supplied by ITC of Toronto, ON, are now being produced in accordance with the new European Directive 2002/95/CE regarding removal of hazardous substances (RoHS). Rails, brackets, screws and other components are now free from lead, mercury, cadmium and hexavalent chromium.

The new regulation, which will be enforced starting July, 2006, will assure that such hazardous components are safely disposed or recycled. ITC is phasing out the same products with the old (yellow bichromate) plating.

Contact ITC for further information.
