

NEW PRODUCT RELEASE

Toronto, November 2007

DISCONNECT SWITCHES 16 - 125A

The new range of non-fused Disconnect Switches from ITC includes models from 16 to 125A in door-mount, panel-mount and enclosed versions. All models are horsepower-rated and suitable for use as motor disconnects. Stock items include 3-pole versions in all styles and sizes noted above, plus 4-pole and 6-pole versions, auxiliary and neutral contacts as well as several other accessories. CSA approved, UL certified.

Contact ITC for a data sheet covering these new product offerings.
