QPLC Series 24VDC LED Light Bars

The QPLC Series features a fully enclosed, slim-profile design with IP65 protection, making it ideal for dusty or humid environments. Its dome-type, dust-resistant lens delivers bright, consistent illumination while offering a clean, modern appearance. With a compact 24mm thickness and a direct AC LED control system, the QPLC Series combines performance and style. Each unit includes cable and mounting holes at both ends for easy installation.

Features and Specifications:

- **Voltage:** 24VDC
- **Connection type:** Standard 400mm cable (2C) / M12 connector (optional)
- **Lens type:** Transparent; translucent lens available
- **Colour and temperature:** Cool Daylight, 6000-7000K
- **IP Rating:** IP65
- **Operating Temperature :** -30 to 50°C
- **Materials:** Lens: PC | Side: ABS | Heatsink: AL
- **Approvals:** cULus (# E469905)

QCMLC Series IP67/69K 24VDC LED Light Bars

The QCMLC Series of LED light bars are designed for industrial environments, including high-temperature washdown areas. With a waterproof build and sleek design, they offer both durability and performance.

Available in two options: a cool white single-color model for clear illumination, and a multi-color version with 7 selectable colors—Red, Green, Blue, Amber, Violet, Cyan, and White—for versatile signaling or ambient lighting needs.

Each unit includes 2 to 4 sliding mounting brackets, allowing flexible installation at both ends.

Features and Specifications:

- **Voltage:** 24VDC
- **Connection method:** 400mm cable (2c) / M12 connector (optional)
- **Lens Type:** Transparent; translucent lens available
- **Colour and temperature:** Cool daylight, 6,000-7,000K
- **IP rating:** IP67/IP69K
- **Operating Temperature :** -30 to 50°C
- **Materials:**
 - **Lens:** PC | **Side cover:** PC
 - **Heatsink:** AL | **Bracket:** PC
- **Approvals:** cULus (# E469905)

QELT Series 110VAC LED Light Bars for Panels with Terminal Block

The QELT Series is designed for reliable cabinet lighting, offering bright, wide light distribution for clear visibility inside control panels. These LED bars connect directly to 110VAC with no external power supply needed for stable illumination.

Available in 4 lengths (200/300/400/500mm), each unit includes two removable stainless steel sliding brackets for flexible mounting, along with a standard direct connect terminals for easy installation. Optional M12 connector customization is available on request.

Features and Specifications:

- **Voltage:** AC110-120V
- **Connection method:** Direct connect terminals
- **Lens Type:** Translucent
- **Colour and temperature:** Cool Daylight, 6000-7000K
- **Operating Temperature :** -30 to 50°C
- **Materials:** Lens: PC | Side cover: PC | Bracket: Stainless steel 201
- **Approvals:** cURus (E539426)

Multi-Voltage Compact LED Light Bars with Magnetic Mounting - 24V-265V

Convenient, energy efficient lighting fixtures (lamps) for mounting inside panels.

These lamps can be mounted to the panel either with clips (supplied) or by the magnets on the back. A strong connection is made by the spring-loaded terminal blocks (located at each end of the device, allowing daisy-chain assembly of up to 16 lamps in AC, up to 8 lamps in DC).

Two models are available - with ON/OFF switch or with motion sensor (switch-off time is 5 minutes).

Features and specifications:

- **Voltage:** 24 to 265V, AC 50/60 Hz or DC
- **Connection method:** Push-in Terminal Blocks / 22-16AWG
- **Power consumption:** 4W
- **Light output:** 400Lm (Cool white light, 6500K)
- **Operating temperature:** -30°C to +70°C (-22°F to +158°F)
- **Materials:** Polycarbonate
- **Approvals:** cURus

L3 Series Heavy Duty 24VDC LED Light Bars

The L3 Series is a heavy-duty LED lighting solution designed for use in industrial machinery across sectors including machine tools, packaging, food, and pharmaceuticals. Built with a durable aluminum housing and tempered glass cover, it offers IP65 protection, making it suitable for demanding environments.

Equipped with dual M12 connectors, the L3 allows for easy daisy-chaining, and the included adjustable stainless steel brackets enable flexible 180° positioning. Models are available with standard glass or a light-diffusing film to reduce luminous intensity where needed.

Features and Specifications:

- **Voltage:** 24VDC
- **Connection type:** M12 4pin connector
- **Lens type:** Transparent
- **Colour and temperature:** 5500-6000K
- **IP Rating:** IP65
- **Operating Temperature :** -20 to 40°C
- **Materials:** Lens: Tempered glass | **Body:** Al | **Bracket:** Stainless steel

QML LED Work Lights - Water, Vibration and Oil Resistant, IP67/69K

The QML Series delivers durable, anti-glare floodlighting designed for harsh industrial environments. Rated at IP67/IP69K, these lights are highly resistant to water, oil, and vibration, making them ideal for machine tools and areas exposed to cutting fluids or high-pressure cleaning.

The tempered glass cover safeguards against impact from metal chips, while multiple mounting options—including direct mount, tilt, and pan/tilt brackets—offer flexibility for various applications. Available in two widths: 150mm and 250mm, the QML Series ensures reliable, long-lasting illumination in demanding conditions.

QML-150-D

QML-150-K

QML-250-MF

Features and Specifications:

- **Voltage:** 24VDC
- **Connection:** 450mm 2C cable; M12 available
- **Operating Temperature:** -30 to 60°C
- **Lens Type:** Translucent
- **IP rating:** IP67/IP69K
- **Materials:** Lens: Anti-Glare Tempered glass | Body: Al | Bracket: Stainless steel 201 or Al
- **Approvals:** cULus (E469905)
