

NEW 1m DIN Rail Handy Packs

ITC now offers a new convenient way of getting standard DIN Rail.

The new handy pack of standard, pre-punched DIN Rail 35x7.5mm (TS35/F6) is the solution to your needs:

- **Convenient to ship:** avoid extra charges from couriers for oversized packages
- **Easier to carry:** a pack of 10x1m lengths weighs only 7lbs (3.2 kg)
- **Easier to store:** the package fits anywhere in your shop or warehouse
- **Just what you need:** one-meter length fits many applications inside most medium-size panels
- **Less leftovers:** no need to discard long pieces of rail

Look for the new handy pack of DIN Rail, part no. 111.020 (order 1m x 10) from ITC or at your local distributor.

The 10 pieces pack is available at a reduced price - and this pack is eligible for lower prepaid shipping!

Single 1m lengths are not available for sale.

Inquire about ITC's various types of DIN Rail, and different models of specialized DIN rail cutters.
