

# LED Stop and Go Traffic Lights

RED / GREEN Stop and Go LED signaling devices for use at loading docks/bays, gates, parking garages, weigh scales, toll booths, and other locations where traffic control is required.

**Ultra-Bright:** The TL96 series of LED Stop and Go traffic lights are the brightest available on the market. They feature ultra-bright, high-efficiency LEDs amplified by optical LED lenses. These lights can be seen in all conditions, including direct sunlight.

**Weather-Resistant:** TL96 lights are manufactured with housing materials designed to withstand all weather conditions, including long UV or rain exposure. The TL96 models are fully sealed and waterproof.

**Long Lifespan:** The 12-24Vac/dc low voltage units, feature on-board power regulation that provides consistent brightness and that is not affected by fluctuating supply voltages.

**Low Profile:** TL96 lights are designed to mount to the wall to avoid any accidental impact.

## Features and specifications:

- **Lights:** Red and Green
- **Lens Material:** Polycarbonate
- **Housing Colour:** Yellow or Black
- **Housing Material:** PC/ABS with UV stabilizer
- **Dimensions:** 254x127x76mm (10x5x3")
- **Cable Entries (2):** 22.2mm (7/8") knockouts (bottom and back)
- **Operating Temperature:** -20°C to 50°C
- **Ingress Protection:** IP65 / NEMA 4X equivalent
- **Approvals (110-130Vac):** QPS

## LED Stop and Go Traffic Lights (Order by Part No.)

Part No.	Description	Housing Colour	Voltage
LED-TL96-LV-YL	LED traffic light, RED / GREEN	Yellow	12-24Vac/dc
LED-TL96-LV-BK	LED traffic light, RED / GREEN	Black	12-24Vac/dc
LED-TL96-HV-YL	LED traffic light, RED / GREEN	Yellow	110-130Vac
LED-TL96-HV-BK	LED traffic light, RED / GREEN	Black	110-130Vac
