

Handy-Cut Portable, light-duty DIN Rail cutters

Tools designed and priced for the small panel builder and contractor.

The Handy-Cut are compact, fully portable tools (weight ranges from 2.5 to 4.6 kg ~ 6 to 10 lbs.) which cleanly cuts steel DIN rail, pre-punched or not. There is no need to mount this tool on a bench, as it is equipped with two handles. Cutting requires minimal effort.

Features and specifications:

- **Material:** Steel. Cutting dies in tempered, tool quality steel
- **Expected life:** at least 7,500 cuts in normal steel
